

CITIZENS ARE AFTER SHERIFF

Want Him To Ask The Governor To Order
Out The State Troops At Once.

STRIKE SITUATION DOES NOT CLEAR

Several Hundred Extra Deputy Sheriffs Sworn Into Office
To Cope With The Increased
Difficulties.

[SPECIAL BY SCRIPTS-M'RAE.]

Chicago, Ill., May 5.—Besides paralyzing commerce and causing death or injury to a score of people daily, on the average, the teamsters' strike is entailing a daily cost of sixty thousand dollars to the city government. The strikers and employers' daily police bill aggregates \$8,000, the extra deputy sheriffs costing \$3,000, while the employers are expending \$15,000 in wages for strike-breakers and private detectives. The cost of feeding the strike-breakers and private detectives is also a big item. Aside from the loss of wages the teamsters are said to be expending \$3,000 daily to maintain the strike. The loss to business and other incidentals easily make a total of \$60,000 a day.

Hold a Conference.

After a conference with Mayor Dunne, Sheriff Barrett decided the police and deputy sheriffs are to work in harmony for the best interests of the city. The sheriff has announced he will ask for state troops in case he cannot control the disorderly element. The governor has practically left the matter of calling the troops to the local authorities. Chief O'Neill this morning ordered the arrest of all persons who persistently follow the wagons manned by strike-breakers.

May Help Matters

It is believed this order will have a marked tendency to prevent disorders. Huge caravans of wagons started out this morning under police guard. During the first two hours there were only minor disturbances. President Gompers of the American Federation of Labor is taking a poll of the executive council on the proposition to attempt a settlement of the Chicago strike. The decision is expected by tomorrow.

Watch the Yards

The teamster's pickets this morning are stationed about the yards of the Peabody Coal Company for the purpose of preventing the deliveries of coal to the Union Traction Company. A meeting of merchants and employers of the Employer's association was held this morning to discuss the matter of asking the sheriff to appeal to the Governor for troops.

More Men Strike

Thirty drivers of the Walsh-Boyle Grocery Co. went out this morning because two of their number were discharged for refusing to deliver goods to boycotted firms. Other grocery teamsters are expected to strike today.

Four men were arrested as the result of a riot at the corner of Forty-sixth street and St. Lawrence avenue in which two wagons of Marshall Field & Co.'s were attacked by a hundred strike sympathizers. The drivers of the National Lead company and the Heath & Milligan Paint Co. joined the strike today. Out of seventy-five strike-breakers who left Kansas City on the Rock Island road only thirty-two arrived at Chicago today. The others deserted while informed that a strike was on in Chicago.

No Violence Downtown.

Comparative freedom from violence in the downtown district Thursday was accompanied by increased rioting on the south and west sides. Caravans of coal wagons, though often attacked, met with little serious trouble. Several single vehicles, however, were wrecked, their loads destroyed or confiscated, and the drivers beaten.

Among those to suffer were the drivers of several delivery wagons of The Fair store. John R. Smith, a driver for the Fair and his escort of two policemen, were attacked by a mob of several hundred people at Ashland and Grand avenue while attempting to make a delivery, losing horses, wagon and \$2,500. Policemen

MONKEY IS FINED FOR SMOKING

Jocco Dooley Pays \$11 for Violating
Indiana Cigarette Law.

South Bend, Ind., May 5.—Jocco Dooley, a monkey of the menagerie of a wild animal show which exhibited here, was the first victim in South Bend of the new Indiana cigarette law which went into effect last month. The warrant was sworn out by James Jushane, Jr., a local attorney. The animal was apprehended in a cage bearing a card reading "Mr. Dooley, the monkey that smokes cigarettes," and at the time the constable appeared had a lighted stump between his teeth. The animal was arraigned before Justice Culvert and assessed a fine of \$1 and costs, amounting in all to \$11.

TEACHER IS HELD FOR ARSON

Principal Accused of Burning Erie,
Mich., School for Revenge.

Herman J. Schwartzberg was dangerously hurt by a piece of stone coping thrown from the roof of a building and the driver and others of the escort were beaten. Smith's star as a special policeman was torn from his coat.

Driver Is Assaulted.

Near Harrison street and Center avenue the police guard following a Fair delivery wagon was attacked and separated from the wagon. The driver whipped up his horses and escaped.

On the south side one of the Fair's wagons was stopped at Seventeenth and State streets and followed by a crowd to Twenty-second street and Wentworth avenue. Here further progress was blocked, and delivery in that section of the city was abandoned.

While delivering parcels from a wagon of Marshall Field & Co., Theodore Spiequel, driver of the wagon, was assaulted by four men, who he thinks were striking teamsters of the firm. The men were not seen following the wagon, and the police believe they had learned of the driver's destination and had been awaiting him there.

Fights His Assaulters.

At Elson and Milwaukee avenues two men assaulted the driver of a wagon belonging to the Washington Shirt company. The driver fought them vigorously until the police went to his aid. Leo Czajkowski was arrested. The other man escaped.

Finding the nonunion wagons too well guarded in the afternoon, one crowd of sixty strike sympathizers attacked and beat Thomas Ball, a grocer at 4847 North Clark street, who was driving his own vehicle alone, unaware that he was doing anything to incur the strikers' wrath.

Women Storm Coal Office.

Wives of union laborers and union sympathizers congregated about the offices and yards of the Peabody Coal company at Canal and Twenty-sixth streets and hurled stones and other missiles at the drivers who were caring for teams in the yards. Later bricks were thrown through the windows of the building. Watchmen attempted to disperse the crowd, but were driven back into the building by the women. Several women walked to the front entrance of the office building and declared that they would burn the place. The police were called, and they had some difficulty in dispersing the crowd, but made no arrests.

Rioter Shot in Hand.

One man was severely wounded during an attack on five coal wagons of the Standard Washed Coal company at Harrison and Dearborn streets. The wagons were driven by officers of the company, one their way to the A. M. Forbes barns, at Sebor and Desplaines streets. At the intersection of Harrison street they were stopped by a large crowd. Several stones were thrown.

Frank Gordon, 23 years old, colored, was dragged from a Twenty-sixth street car near Stewart avenue and assaulted by five young men, suffering an injury that probably will destroy the sight of his right eye.

Walter Johnson, 26 years old, colored, was dragged from his seat by a crowd at Twenty-eighth street and Shields avenue. Johnson was armed with a razor, with which he slashed one man across the chest. Two of the latter's friends took him away, and the others then disarmed Johnson and beat him until he fell to the street. Then they threw him into a vacant lot, where he lay until the police arrived.

Toledo, Ohio, May 5.—Leon E. Shafer, principal of Deshler public schools, former principal of schools at Erie, Mich., and an applicant for superintendent of the Toledo schools, is under arrest at Monroe, Mich., charged with having set fire to the school building at Erie four weeks ago. The motive alleged is revenge for having been dismissed. He was arrested at Deshler, O., and waived extradition. He is held for \$3,000 bail. The Erie authorities claim that he came to Erie from Toledo by electric line, set the fire, walked back to Toledo and reached Deshler in time to open school.

Nominate Brother of Davis.

Wheeling, W. Va., May 5.—The Democrats of the Second West Virginia district have nominated Col. Thomas B. Davis for congress. Col. Davis is the only brother of Henry G. Davis, late Democratic vice presidential nominee.

RUSSIAN SOLDIERS IN AN OPEN REVOLT

Resist Other Troops Sent to Quell
Them, and a Battle Follows.

[SPECIAL BY SCRIPTS-M'RAE.]

St. Petersburg, May 5.—Several hundred soldiers at Sevastopol have revolted and resisted the troops sent to restore order. In the fight which followed many were killed and wounded.

NOXIOUS MEASURE KILLED IN SENATE

Dr. Noble's Patent Medicine Formula
Bill Meets Death in the
Upper House.

Madison, Wis., May 5.—The senate killed Dr. Noble's patent medicine bill, refusing to delay action and allowing no amendments. The railroad rate commission bill will come in from the committee tonight.

STATE NOTES

Fire destroyed the Morrill stockyard of the Milwaukee road, barns adjoining, and a large barn and warehouse of the W. R. Bryant company. The damage is about \$5,000.

Mrs. George Swift of Chicago has announced that she will contribute \$1,000 toward the \$55,000 endowment fund for the maintenance of the new Carnegie library at Lawrence university.

A pair of broken trucks derailed twelve loaded freight cars on the Milwaukee road at Springfield, Wis., Wednesday night, causing a loss of \$20,000. The track was badly torn up for some distance.

The Grand lodge of Portland, Me., convened on Thursday to honor the memory of the late Oliver Libbey of Green Bay, a thirty-third degree Mason, who had held the offices of grand high priest and grand master of the Wisconsin lodge.

Charles Carman of Racine, formerly a motorman for the Milwaukee Electric Railway and Light company, suffered the fracture of both legs and was internally injured in an accident on the Detroit, Monroe and Toledo Short Line railway.

Fred G. Cowie, formerly employed by the Milwaukee road as a detective, will be tried at the present term of the circuit court at Waukesha on a charge of having forged the name of his father-in-law, Dr. G. A. Rice, to a note for \$5,550.

The police of several cities of the state and Chicago are looking for Edward Doonan, wanted for stabbing William Dunham in a fight in a Racine saloon. Dunham has a knife wound five inches long and three inches deep over the heart and his right wrist is broken.

L. E. Lamb, Frederick Schenning, Charles G. Hawley, and Charles Brenhoff, summer resort keepers in the town of Salem, Kenosha county, are charged with violating the slot machine laws by keeping slot machines in their hotels. They will be given a hearing next week.

George Racey, formerly of Oshkosh, who escaped from the county jail, to which he had been committed for four months for the theft of a stove, has been sentenced to six months for escaping.

SAILING SOUTH TO JOIN SQUADRON NOW

First Russian Fleet Is Making Plans
to Unite with the Second
Fleet.

Singapore, May 5.—Nebogatoff's squadron was sighted this morning going very fast in an easterly direction. It is expected to proceed to Saigon for provisions and coal before sailing to join Rojstevsky.

Goes South

St. Petersburg, May 5.—It is reported here that Rojstevsky has sailed south to meet Nebogatoff. It is also reported in naval circles that the Japanese division of fast cruiser torpedo boat destroyers went south to engage Nebogatoff and look up a position in the straits of Sunda. Nebogatoff finding the straits blocked, headed north and entered China sea by the straits of Malacca.

Leaves for Fleet

St. Petersburg, May 5.—It is announced the Russian armored cruiser Gromovoi has left Vladivostok.

Ignore Neutrality.

London, May 5.—The identification of the warships sighted by the steamer Selangor in the straits of Malacca as Rear Admiral Nebogatoff's division of Admiral Rojstevsky's squadron is considered liable to develop an interesting situation. Jugrah, off which the division was seen, is a town of the state of Selangor, which is a British protectorate, and is not far distant from the point where a Russian division was sighted as long ago as April 27. It is not yet known whether the Russian warships are within territorial waters or whether they are obtaining supplies from the neighboring land.

A brief telegram on the subject from Singapore, however, is taken to indicate that for a week the Russians have been practically enjoying the hospitality of the waters of Japan's ally in the same manner that Admiral Rojstevsky's ships have utilized French waters in Cochin China.

Jap Anger Is Rising.

Tokio, May 5.—The press of this city continues its sharp criticism of French neutrality in Indo-China waters, and expresses surprise and indignation at what it describes as the elasticity of France's pledge.

The Jiji urges the government to adopt independent action for the protection of the national interests, and insists that the responsibility for the extension of hostilities to the Russian fleet must rest upon France.

It is understood that the Japanese government has addressed France on the question of her neutrality, but the nature of the correspondence is unknown.

ILLINOIS SENATE KILLS GAS BILL GIVING CITIES RIGHT TO REGULATE THE PRICE

This Ends the Great Gas Fight in
the State of
Illinois.

[SPECIAL BY SCRIPTS-M'RAE.]
Springfield, Ill., May 5.—The senate this afternoon killed the bill giving the municipalities the right to fix the price of gas. The vote was twenty-four to sixteen.

BIG STRIKE FAILS TO COME ABOUT YET

Michigan Miners May Not Go Out
on the Adversity Strike
After All.

[SPECIAL BY SCRIPTS-M'RAE.]

Marquette, Mich., May 5.—Despite "Mother Jones" agitation and other indications, conservatives say the threatened walk-out of thousands of miners will not take place.

SPARKS FROM THE WIRES

For the first time in years the gambling resorts of Big Lake, Minn., are closed, the order having gone forth from the county attorney's office to the sheriff.

Andrew Bachinski, aged 11, of Jackson Center, Ind., while out fishing with two other lads, fell out of the boat in trying to land a big bass and was drowned.

Hundreds of homeseekers and prospectors are flocking to the Kiowa-Comanche country to select leases of the pasture lands soon to be opened for agricultural purposes.

A. W. Schulze, an attorney from Vandalla, Mo., died at the hands of three masked footpads at Sand Point, Idaho. He was shot through the abdomen. Militia are in pursuit of the murderers.

Wilhelm Deltz, who killed Russell M. Lindsay, a brother-in-law of William Allen White, the author-editor, near Kansas City, Kan., April 29, 1907, has been given an absolute parole by Governor Hoch.

Acting Secretary Loomis received a cablegram from Minister Barrett at Panama stating that he expected to be able to sail for Colombia May 16. Rev. E. G. Zellars, late pastor of the First Congregational church of Paxton, Ill., has gone to Spencer, Mass., where he has accepted a pastorate.

Senator Albert J. Beveridge left Indianapolis for New York, by way of Washington, and next week will sail from New York for a month's rest in European waters.

Secretary Taft announced that he had decided finally to appoint Paul Carlton of Nebraska to succeed Judge Charles E. Magoon, as law officer of the insular bureau.

Joseph H. Choate, the retiring ambassador to Great Britain, and General Horace K. Porter, former American ambassador to France, were elected to honorary membership in the New York Chamber of Commerce. Mr. Takahira, the Japanese minister, has gone to Old Point Comfort. A wound caused by an operation for appendicitis never has closed satisfactorily and the minister has not succeeded in regaining his strength.

INSPECTOR MURDERED BY THE PEOPLE WHO ARE ENRAGED OVER MASSACRES

Man Who Directed the Recent
Wholesale Killings Is Found
Dead.

[SPECIAL BY SCRIPTS-M'RAE.]

Warsaw, May 5.—Inspector Abrahamovic, who is regarded by the people as responsible for the massacres May 1st, was found dead today with five bullets in his body.

LIVELY MUSIC QUELLS PANIC

Brave Act Of An Unnamed Hero Who Played
Popular Airs On Church Organ.

THE FLEEING PEOPLE ALL STOPPED

Panic In A Church Gathering In Illinois Is Narrowly
Averted by Clear Good Judgment
Of Organist.

[SPECIAL BY SCRIPTS-M'RAE.]

Shawneetown, Ill., May 5.—But for the presence of mind of the organist of the Presbyterian church, who coolly played on the organ when the cry of "fire" rang out in the church during the commencement exercises of the high school, many persons undoubtedly would have been seriously injured and several probably killed in the panic which threatened.

Five hundred persons crowded the small building, among them a large number of children and women. A fire, which originated in a planing mill near by, spread rapidly. Some one standing near the church door discovered the flames and at once cried out. The second story of the planing mill was stored with 100 tons of hay and the whole structure burst suddenly into flames.

Stampede Is Checked.

The light from the fire, together with the alarm sounded so near at hand, caused an immediate stampede. Men, women and children started from

their seats and turned to rush for the door.

The organist at once began rendering a lively tune and the audience hesitated for a moment. In that short space of time they learned that the church building was in no danger and a serious panic was averted. As it was many persons were slightly injured in the crush.

Protect the Children.

Several men retained sufficient presence of mind to lift the children above the crowd or there would have been some fatalities before order was restored.

The flames from the planing mill, which belonged to Karcher & Co., spread to the Shawneetown Ice company's plant and to the residence of George W. Hubbard, destroying both buildings. The total loss will aggregate \$30,000, with \$5,500 insurance. It is believed that the fire caught in the hay in the planing mill from sparks from the engine at the ice plant.

HELPS FREE FATHER FROM STATE PRISON

Prison Doors Open for Martin May,
Who Killed His Wife, After Daughter
Pleads With Governor.

Des Moines, Iowa, May 5.—Martin May, convicted thirteen years ago for the murder of his wife and sentenced to life imprisonment, has been pardoned by Gov. Cummins. His prison cell opened as a surprise to him, and as he stepped forth to liberty his daughter, who caused his conviction and secured his release, pleaded for forgiveness.

At the time of the tragedy May was living in Oelwein with his charming wife and daughter of 10 years. He was jealous of his wife. She had been visiting relatives out of the city and on her return she was met at the depot by her husband and daughter. These two were the only ones present when the husband drew a revolver and, accusing his wife of being untrue to her marriage vows, shot and killed her.

The daughter, believing in her mother, arraigned herself against her father. It was her testimony which decided his fate. Since his incarceration she has grown to womanhood and stories of her mother's life have come to her, so that she has been convinced her father did not act without provocation. Brooding over his life imprisonment has broken her health.

Finally she sought the assistance of ex-Governor Larabee and Warden Hunter of the state penitentiary at Anamosa, where May is confined. For months she has been working with Gov. Cummins for a parole.

John Odell left today for Platteville where he has accepted a position.

AGREED ON RATE BILL AND PRESENTED IT TO SENATE

Senate Committee Has At Last Settled The
Most Important Articles Of
The Bill.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., May 5.—The senate committee on railroads has agreed. After a session lasting until twenty minutes to 1 o'clock this morning the committee fled out of the conference room. There was joy written on all the faces in the procession. They had agreed. The measure was reported in to the upper house this morning with the recommendation that it be passed. The machinery of the bill is extensive and somewhat complicated.

The main features, however, over which the greatest difficulty was experienced in arriving at an agreement were the provisions that the commission can change rates and that the decision of the commission shall go into effect 20 days after the announcement thereof. If either party to the controversy, the railroad company or the shipper, desire to resist the enforcement of the decision of the commission an injunction must be procured from the courts, the same as

in any other litigated controversy. The committee agreed upon an appointive commission, to consist of three members, named by the governor and confirmed by the senate. Another provision over which there was difficulty in the committee is that no shipper can get a refund for alleged excessive or unreasonable rates, but can secure a reduction for future shipments by making the required showing before the commission. The salaries of the commissioners are to be \$5,000 each. It is believed that the measure can be gotten in shape for reporting to the senate today, ordered engrossed and passed expeditiously, there being now little or no doubt whatever as to the passage by the senate, and it will be sent to the assembly. It is believed that the two houses will disagree as to some features and a conference will be necessary. However, the members of the senate committee are gratified with the unanimity with which they have reached a conclusion of the great task before them.

A NEW INDUSTRY IN JANESVILLE

THE MAKING OF BRICK AND BUILDING BLOCKS,

TWO DIFFERENT COMPANIES

Silica Brick and Stone Company Operating—Another Plant Is Being Built.

New industries are continually germinating. Some never reach beyond the primary stage of growth. Some spring up rapidly, assume large proportions, collapse, die and are forgotten. Others grow slowly, steadily and firmly and become permanent. Many such have grown in Janesville. At the foot of South Main street now is healthily growing the industry of manufacturing building blocks and brick. There are three companies, all making their products to be used for the same purpose but by different processes and their blocks or bricks are of different qualities, but all good. The Rock County Hollow Concrete Block company was established last year and is manufacturing hollow cement building blocks. Alongside of their manufacturing is being built the plant of the Janesville Granite, Brick & Stone Company, which will make pressed sand and lime brick. To the south of both these and just below the Janesville Cement Plant is the Silica Brick & Stone Company's structure where are being turned out at the present time the building block made in the American Stone Company's machinery and a pressed cement brick. This factory commenced operation last fall and reopened in March.

Industry Is Young.
The manufacture of building blocks and brick is still in its infancy in Janesville and no place in the country has reached a settled stage. In all prospect the industry is one that has come to stay and its success in other places insures its growth and permanency in this city, for no place in the country can there be found finer or larger deposits of sand containing such quantities of silicate as there are in the southern portion of the Bower City and on adjoining farm lands. W. H. Eccles, superintendent of the Silica Brick and Stone Company, a graduated civil engineer and for three years inspector of masonry on the Southern Railroad says that the sand found in the hills here is richer in silicate, containing ninety per cent of that substance, than any other in America that he knows of. It is his opinion that if these hills were closer to Chicago, within ten miles of the Windy City, that the owner would have in them a gold mine. The one retarding feature is that they are a long way from a central shipping point and freight charges take away much of the profits of the industry here, that could be added if nearer Chicago.

The Coming Material.
Tests have shown that cement compositions harden and improve with age and after properly and thoroughly cured are not injured by frosts or heat. The air cells which are a feature of the blocks manufactured by both concerns prevent any frost or dampness passing through walls constructed of them and are warm in winter and cool in summer. Cement blocks and the different kinds of pressed brick are in the minds of many contractors the building material of the future.

JANESVILLE GRANITE, BRICK & STONE COMPANY.

The Janesville Granite Brick & Stone Company, whose plant is now in the course of construction, is incorporated of local capital. The stockholders in the company are largely the members of the firm making the Rock County concrete hollow blocks and the making of sand lime bricks is practically an addition to their former flourishing industry. They have a large supply of blocks on hand now and are manufacturing more, but the largest part of the force of workers are employed in the erection of the new building. Here will be made the Huennikes System Sand lime brick from sand and lime.

The Huennikes System.
The Huennikes Company, of New York and Chicago, engineers and contractors, have installed over fifty of these factories in the United States, Canada and Mexico, all of which have proven successes with proper management. From the fact that the brick can be manufactured by this system in a very short time, has attracted brickmakers in general. While it takes about thirty days to have clay or shale brick ready for market, after the raw material has been dug, the sand-lime brick can be on the market within forty-eight hours after the pressed in one of the latest Boyd presses, constructed especially for the sand-lime brick and here subjected to a pressure of one hundred and twenty pounds for ten hours. While in the press they experience various chemicals and steam and the chemical action of the steam on the sand and lime aids in strengthening and im-

SPRING CATARRH.

Changeable Weather Cause Disease. Breathe Hyomei and Cure Catarrh. The changeable weather of Spring, with its warm days and cold nights, is responsible for a great increase in the number of cases of catarrh. It is now that Hyomei, the only guaranteed treatment for catarrh that cures without stomach dosing, should be used in every home. Hyomei is a scientific method by which pure air impregnated with Nature's own remedies for the cure of catarrh, can be inhaled by every sufferer in his or her home. Breathed through the neat pocket inhaler that comes with every outfit, its healing, volatile, antiseptic fragrance reaches the lungs and air passages as no stomach dosing possibly can do. It gives immediate relief and makes lasting cures.

Proof that the Hyomei treatment will do all that is claimed for it is found in the guarantee under which People's Drug Co. sell it, an agreement to pay back the price, if the purchaser can say that Hyomei has not given satisfaction. Complete outfit, \$1.00; extra bottles, 50c.

proving the brick. The great feature of this kind of material is that it is lighter than many other forms of brick and can stand a pressure of five thousand pounds to the square inch, while the common burnt clay product averages about half that strength. From the fact that the United States government are using sandlime brick in various lines of construction is sufficient guarantee that they have the merits claimed for them. The plant will run with a force of ten or twelve hands and the capacity will be between eighteen and twenty thousand brick a day.

Building and Equipment.
The factory being erected consists of a boiler room 22 by 43 feet, engine room 16 by 31 feet, mixing room 31 by 40 feet, press room 20 by 40 feet, hardening cylinder room 14 by 25 feet and steam sand dryer 10 by 25 feet. The power will be furnished by a 150 h. p. boiler and a 125 h. p. Hamilton Corliss engine. The other equipment consists of lime crusher, tube-mill, screens, mixers, elevators, conveyors, belting, pulleys, shafting, etc., necessary to the proper working of such a factory, and one of the latest Boyd presses with a hardening cylinder 68 inches. The engine has arrived and will be placed on the foundation in a few days, while the other machinery is expected to arrive as fast as the buildings are ready to receive it.

At the present time the workmen are engaged in making heavy concrete foundations for the walls of buildings and machinery. Mr. James Shearer, one of Janesville's best known contractors, has the construction of the buildings in charge and Mr. Chas. B. Ebert, Asst. Engineer for the Huennikes company is here to inspect the work as it proceeds. With the rapid progress that has been made during the past few days, this factory will be in operation within two months.

SILICA BRICK & STONE CO.

The manufacture of the Silica Brick & Stone Company is situated at the intersection of the Delavan road and Vine street and is reached by the sidewalk extending to the Cement Plant factory, being at the rear of that plant. The company operating this concern is composed of Milwaukee men with one local stockholder, W. A. Goebel, who was instrumental largely in bringing it to Janesville. The product of their plant is building blocks, made in the machinery of the American Stone Machinery Company of Denver, Colorado, and a pressed cement brick, known as a silica brick, being made of cement and sand, with a large per cent silicate. Operations were commenced here last fall but suspended during cold weather. They were reopened this spring under a new management, W. H. Eccles superintending. At present they employ a force of eight men, which will doubtless be increased before the close of the season and the plant enlarged.

The Building Blocks.
Their blocks contain three ingredients, gravel, sand and universal cement. These materials are mixed with water and in moulding are subject to a twelve-ton hydraulic pressure. This strengthens and perfectly form the block. They are so shaped that when laid form practically to water, with an intervening air space. The principle of this is the same as the principle of the hollow block, but the makers assert that the air space being continued the full length of the wall, without interruption, as is the case with the hollow blocks, is an improvement and the chance in the manufacture for a heavy hydraulic pressure process is also given. They are turned out from the factory at the rate on an average of four hundred a day. They can be made in any shape or size needed in the erection of a building—door jambs, window sills, chimney parts, and all other necessities.

Silica Brick.
The brick which they manufacture is a silica-cement production and stands in high favor with builders, because of its strength and lasting qualities, improving as the cement blocks, with age. The ingredients are mixed dry and then with plenty of water are moulded with eighty thousand pound hydraulic pressure to each cubic capacity of the concern is seventy thousand dry and they are now filling an order from Milwaukee for 118,000 faced brick. The product is a natural blue-gray color but it is very probable that experiments in coloring any hue will be successful.

The company now has orders enough to keep the present force running until August, says Superintendent Eccles, and more orders are continually coming. The plant will be made larger by the end of summer and besides increasing our output we will ship sand out of the city to various concerns using it in the manufacture of their products and not having a natural supply at hand.

TERRIBLE RITES OF RUSK LYCEUM

Were Administered to Two Neophytes Last Evening—Ceremony Followed by Banquet.

Roger Cunningham and Elsworth Strang were initiated by the Rusk Lyceum society of the high school last evening and terrible rites such as electric shocks, the mysterious shower-bath and egg shampoo, shooting the chutes and aerial voyages on the curious lifting blanket, were administered. There was a spread at one of the restaurants after which the students gave a number of cheers for the high school instructors in front of their homes. Mr. Rollins responded with a speech which pleased his hearers, but Supt. Buell could not be aroused at the late hour.

Sewing Machine Bargains.
real ones, at Singer Stores. Buy here and deal with the manufacturers. The Singer Company is permanent and responsible; its representatives are always at hand to care for Singer Machines. Look for the red S. 14 Corn Exchange Block, Janesville, Wis.

Judge Bolden has granted Frank G. Koehn, divorced from his wife at Kenosha less than a month ago, permission to marry Miss Nellie Miller of Milwaukee.

ORGANIZE JUNIOR BASEBALL LEAGUE

Four Clubs Have Teams—Will Play for Cup—Rule Against Sunday Ball.

In order to promote and uphold clean baseball among the boys of the city and to have a series of games during the rest of the school year, the Junior Baseball League of Janesville has been formed. The teams that compose the organization are representatives of the Y. M. C. A., the Knights of the Holy Cross, the Baptist Church Boys' club and the Riverview Baseball club. The first game of the league will be contested Saturday afternoon at Athletic park between the Y. M. C. A. and the Riverview aggregations. The following Saturday and every Saturday through June 17, two games will be played, all four teams participating once a week. This will be the extent of the season, unless a tie between teams results, each nine having met each other twice.

Committee of Control.
The captains and managers of the four teams form a committee of control, who have full charge of the regulations and the schedule of the league. J. A. Ward, manager, and Elsworth Strang, captain, represent the Y. M. C. A.; Doane Wright and George Parker, the Knights of the Holy Cross; Jerome Howland and Lee Woodworth, the Baptist Boys' club; and Fred Hans and Will McLaughlin, the Riverview club. Doane Wright is president of the league and J. A. Ward secretary and treasurer. Among the rules of the organization are regulations forbidding from all games boys who play ball on Sunday, players who are convicted by the committee on the charge of swearing or smoking on the grounds before, after or during a game, and those who have not been members of the club they are playing with four days previous to the contest. An age limit of sixteen years also aids in evening the ability and strength of the nines.

Play for a Cup.
Each team has agreed to make a deposit of two dollars and a quarter toward the buying of a cup to play for. This trophy will be awarded the team standing at the head of the league at the close of the season. A committee to purchase the prize has been appointed and its purchase will soon be made. The officials of the various games will be young men in no way connected with any team or club represented in the league.

This year but four teams were entered in the league and no more will be admitted, but next season the persons instrumental in the organization of the league plan to secure a number of other teams and will play more games.

STATE LEAGUE OPENS SEASON

Oshkosh, Beloit and Wausau Are the Winning Teams.
La Crosse, Wis., May 4.—The State league season opened here successfully today with good weather, a large attendance, and a fast game between the La Crosse and Wausau teams. The game was a pitchers' battle with Dodge having slightly better of it, but he lost the game in the sixth inning by an unlucky throw to catch on a runner at third, thus letting in the only run of the game. Score:
R. H. E.
La Crosse . . . 0 0 0 0 0 0 0 0—4 1
Wausau . . . 0 0 0 0 1 0 0 0—2 3
Batteries—Dodge and Dodge for La Crosse; Fay and Walten for Wausau. Attendance—1,500.

Green Bay, Wis., May 4.—Green Bay was defeated in the first of a series of four games to be played this week by Beloit, the games opening today at the State league in this city. The game was hotly contested, the feature being the playing of Wood, Green Bay's shortstop, who made the only two base hit. Score:
R. H. E.
Green Bay . . . 0 0 1 0 0 1 0 0—2 3 4
Beloit . . . 0 0 0 0 2 0 1 0—3 7 5
Batteries—Green Bay, Concoran and Rath; Beloit, Oshkosh and Smith. Umpire—Hassman.

Oshkosh 16, Freeport 1
Freeport, Ill., May 4.—The opening game of the Wisconsin State league, played here today by the Freeport and Oshkosh teams, attracted over 1,000 people to Taylor's park. Oshkosh's heavy hitting won the game and Bebe's pitching was marvelous. Three more games are to be played, and Green Bay follows in Freeport. Score:
R. H. E.
Freeport . . . 0 0 0 0 1 0 0 0—1 2 3
Oshkosh . . . 3 3 0 2 0 2 0 0—16 10 2
Batteries—Freeport, Farwell, Malvin and Karnell; Oshkosh, Bebe and Moore.

DOG BELONGING TO M. McCUE MEETS END CURIOUSLY
A valuable canine, the property of Michael McCue, was killed in a most strange manner a few days ago. The animal in attempting to jump to a wagon-seat fell, fracturing a rib. The bone was displaced and pushed through the left lung and heart. The dog lived but a short time.

GUN CLUB HOLDING A SPIRITED SHOOT
At Athletic Park This Afternoon—Good Program Has Been Arranged
Members of the Janesville Gun club are enjoying one of their shoots at Athletic park this afternoon. The series of events arranged is a good one and an interesting score sheet is looked for at the close of the shooting.

GOES TO GERMANY.
Mrs. John Webers of Lawrence, Mass., says Father John's Medicine is invaluable for children with coughs and colds, and she would not be without it in her family. She sends it to her cousin in Germany, and he is taking it with good results.

SIXTY-NINE HEAD OF CATTLE KILLED

At Blanchardville on Wednesday Under Direction of State Veterinarian E. D. Roberts

State Veterinarian E. D. Roberts conducted the slaughter of sixty-nine head of cattle affected with tuberculosis near Blanchardville Wednesday. It was the largest slaughter of infected cattle ever known in the state. The cattle were driven out in a field one at a time and one was killed every ten minutes. The job required the entire day. A ditch sixty feet long, twelve feet wide and ten feet deep had been dug in which to bury the carcasses and none were buried until the entire sixty-nine lay along the edge of the ditch. More than two hundred people witnessed the slaughter.

The next annual convention of the Rock County Sunday School association will be held at Edgerton Saturday and Sunday, May 20th and 21st. A good program and fine meeting is promised.

HARRY AIRS WILL BE THE HEAD CLERK TO ROADMASTER

Of North-Western Road at Huron, South Dakota—Gets Deserved Promotion.

Harry Airs, son of Mr. and Mrs. William Airs who formerly lived in Janesville, has been appointed as head clerk to the roadmaster of the N. W. road stationed at Huron, S. D., and will depart soon to assume the duties of his new position. He has recently been employed in the general offices in Chicago, some of his time being spent in Supt. Frank Pechin's office.

WEST SIDE MANAGEMENT HAS LEASED WATERTOWN THEATRE

For Sunday Nights During the Summer Season and Will Put on Vaudeville.

Yesterday the West Side vaudeville theatre management closed a contract with Manager Reddick of the Watertown opera-house for a lease of the same during the summer for Sunday night vaudeville. When the week's bill closes here Saturday nights the performers will go to Watertown for Sundays under this arrangement. Five large electrical fans are to be placed in the local playhouse on the west side and it will be made as cool a place as there is in Janesville.

PROF. MICHAEL ROWAN TO DELIVER LECTURE HERE

Will Speak on Ireland Under A. O. H. Auspices on Friday Evening, May 12.

Prof. Michael Rowan of Marquette college, Milwaukee, will deliver a stereoscopic lecture on Ireland at Assembly hall Friday evening, May 12. The entertainment is to be given under A. O. H. auspices and will be followed by a dancing party.

Labor Notes

Hon. Jerome Jones, President of the Georgia Federation of Labor, has called the seventh annual convention of that body to meet in Atlanta, June 21.

Labor received a severe setback in the upper branch of the Massachusetts legislature recently, when without debate, the overtime bill was rejected. It prohibited the employment of women and minors in the textile establishments before 6 o'clock in the morning and after 6 o'clock in the afternoon.

Milwaukee is to have the largest machinery works in the world. Extensions are to be made to the Allis-Chalmers plant at West Allis, until it is four times its present size, and its working force increased from 5,000 to 20,000 employees.

Eight industries, practically all of consequence in Princeton, N. J., are closed indefinitely on the demand of the American Federation of Labor that the employees get \$1.75 a day instead of \$1.50, which they have been receiving.

After being on the strike for eleven months the members of the laborers' Union of Montclair, N. J., and vicinity have won their fight, the one remaining boss who held out until a few days ago having yielded, with the result that every boss mason is now employing none but union men.

The labor organizations of Australia are preparing to make a demand for the eight-hour workday throughout the Australian colonies on May 1. The eight-hour day is in force in some parts, and in some of the industries of the colonies; but the present movement is for the purpose of making the rule cover every section and industry.

Louis Fyke Bryson, the woman specialist, who has just completed an investigation into the child labor question in New York, says: "In this city 20,000 children, too tender to know what work means, are at work, and stunted and diseased bodies are to be their heritage."

The A. F. of L. Executive Council has adopted a resolution requesting affiliated unions to contribute no more financial support to the Western Federation of Miners, but to donate all the funds possible to the striking garment and capmakers.

The appellate division of the Supreme Court of New York has declared unconstitutional the law requiring horsehoers in cities to be examined and licensed.

Street pavers and rammersmen will soon be organized into a national union.

A co-operative building association is being organized among the workmen of Trenton, N. J.

Just Think of It!
Somewhere in the neighborhood of twenty young ladies go to the depot each day to see the cars come in, and to look at the nice fat conductor, Mr. J. S. Collins, and the slim engineer, H. W. Addington, both lovely fellows, the girls declare, but they are not any nicer than Clarence Lajons, the fireman, or the real pretty young man, H. A. Towne, who stops and starts the cars by simply waving his hands in the air like a coon preacher at his enemy's funeral. Why the girls all like the trainmen is probably because they are such nice fellows. The "con" takes their little white hands in his paw and with a gentle squeeze asks them to the parlor with grips and parcels as gallantly as a South Carolina colonel. Nothing slow about the girls in the engine; they will not let the engine smoke when there are pretty girls or rich old maid on the depot platform. Towne, the "braky," is a very clever young man, but some of the dagoes have an Italian countess picked out for him and he will leave for the sunny clime of southern Italy next fall to win the love of some dark beauty unless some beautiful blonde steals his heart ere his departure. Ask Jack about it.—Highland News.

HOW MANY DIE.

Interesting Facts Shown by the Statistics Compiled in Head Office of M. W.

From the statistics prepared by the Head Clerk covering the past biennium some very interesting facts are shown. For instance, during the two years out of a total of 7,077 deaths, 3,664 were what were termed "short-term" deaths; that is, they were deaths from those who had been members of the society less than five years. Another interesting fact is that during the two years there were 885 accidental deaths, making the risk from an accident next to the greatest in our society. The largest number died from tuberculosis, 1,026 dying from that disease. During the two years 246 committed suicide, 493 died from typhoid fever, 558 from heart disease, 354 from cancer, 407 from Bright's disease and 746 from pneumonia. Appendicitis caused the death of 174; apoplexy had 165 victims; 114 died from diabetes and 155 from stomach trouble. The fact, however, that accident was the second largest factor in causing deaths is a subject of much interest.—Modern Woodman.

A GOOD RESOLVE.

Janesville Lawyer Sets Example That Other Smokers Would Do Well to Follow.

One of our most prominent lawyers has made a resolution that he recommends to other smokers, without asking any fee.

For years he has been smoking ten cent and fifteen cent cigars and often without getting one that was satisfactory. When in Smith Drug Co.'s store a month ago, they recommended a 5c cigar, Wadsworth Bros'. Chicago, and the result is that he has resolved to buy no other cigar, for he knows that he is getting a better cigar than he has heretofore purchased.

Other smokers should follow this example. The Wadsworth Bros'. Chicago is made from the best Havana tobacco, not flavored or doctored in any way, and is better than cigars that are usually retailed for double the money. Drop in at Smith Drug Co.'s today and get a 5c.

Calumet Baking Powder

Perfect in quality. Moderate in price.

MALARIA
Is poison germs in the blood. Help Nature to keep them out or destroy them by using
NU-TRI-OLA
and Nutriola Laxative Granules. Disease cannot stay where they are used, and they will make you "new old" again.
McCUE & BUSS

A good thing—a want ad.

...Forty Years Ago...

Janesville Daily Gazette, Friday, May 5, 1865.—The 12th battery is said to be on its way home.

Dull.—We believe in all our experience in Janesville, we have never seen less activity in the streets than today. The farming community is evidently giving its whole attention to the demands of the season. Such beautiful weather certainly ought to be improved.

New Church.—The foundation for the church of the Messiah, at the corner of Bluff and Court streets, is being rapidly built. The location is a very eligible and pleasant one and the edifice, when completed, will be an ornament to that part of the city. The size of the building is 40x50 feet. It is to be built of yellow brick, and will be neatly and substantially finished.

Held to Bail.—Yesterday Samuel B. Boynton, ex-deputy provost marshal, at Monroe, and Edward C. Austin, were held to bail by U. S. Court Commissioner Merrill, each in the sum of twenty-five hundred dollars, for their appearance at the September term of the United States court. They were charged with enlisting minors and defrauding them of their bounties. Both parties waived examination before the Commissioner.

General Wilson's great cavalry expedition forms the chief item of news this evening. The result of the campaign is thus summed up: The capture and occupation of four of the most important cities of the Confederacy; 6,000 prisoners, over 200 guns, a large supply of small arms, devastation of the country, and destruction of at least \$50,000,000 worth of property, directly or indirectly belonging to the rebel government.

Eight Marylanders charged with harboring Booth and aiding his escape, have been arrested and lodged in the prison at Washington. The charge against ex-Governor Aiken of South Carolina, is said to be quite serious and not at all in harmony with that gentleman's reputed unionism. At the breaking out of the war he was one of the wealthiest men in the South, his riches consisting largely in negroes.

The war department was closed yesterday out of respect for Mr. Lincoln, whose funeral obsequies were taking place at Springfield.

A formal demand is said to have been made upon the Canadian government for the surrender of such of the assassination conspirators as may be within its jurisdiction.

Yesterday all that was mortal of our Chief Magistrate was committed to its kindred dust at Springfield, Illinois.

FRED COPP, FORMERLY OF EVANSVILLE, PASSES AWAY AT HOME IN CAPITAL CITY

Mrs. Ira Fisher Has Fire Loss at Grand Rapids—Rev. Wilson to Go to Europe.

Evansville, May 4.—Word was received in this city today of the death of Mr. Fred Copp, son of Rev. Mrs. Ellen A. Copp, at Madison. Decades was a student at the university.

Rev. Copp was minister of the Free Baptist church in this city for several years, resigning her position this winter, and went to Madison April 1 to make a home for her two sons, Wayland and Fred, who were attending the university. The bereaved family has the heartfelt sympathy of many warm friends in this city and vicinity.

Farewell Sermon
The Easter music will be repeated at St. John's Episcopal church Sunday. Rev. Clark A. Wilson will deliver his farewell sermon and will leave on Monday for a brief visit with his mother and brothers in Milwaukee and the following Friday will sail for a three months' tour in Europe.

Farm-House Burns
Wednesday Mrs. Ira L. Fisher received word that the house on their farm near Grand Rapids, Wis., occupied by her son-in-law, Will Dixon, and wife (formerly Clara Fisher), burned to the ground, about one o'clock in the night. Only a portion of their furniture was saved. The origin of the fire is unknown, though it is believed to have caught from the kitchen stove. The farm was recently purchased by Mr. Fisher from Wm. Ross of Janesville. The house was insured.

Attend Banquet
Depot Agent E. P. Colton and Baggageman W. H. Briggs were in attendance at a banquet at Baraboo Tuesday night given in honor of R. A. Cowan, retiring superintendent of the North-Western road.

YOUNG LADY STUDENTS OF MILTON HIGH SCHOOL ARE HOSTESSES OF YOUNG MEN

Many Interesting Items of News, Eventful and Personal in Nature.

Milton, May 5.—The high school girls gave a May Day banquet to the boys of the high school and friends Monday evening. The rooms were very tastefully decorated with the high school colors, bouquets of wild flowers, ferns and pansies. Chairs, rockers and couches gave a comfortable and homelike appearance to the rooms. The girls gave a very interesting program of music, songs, recitations and a Maypole drill. Following the program all sat down to a very elaborate banquet. Miss Alice Stillman acted as toastmistress. Several of the students, the teachers and the members of the school board participated with toasts. All went home satisfied that this was one of the brightest events of the school year. Much of the success of the banquet is due to the caterers, Mesdames Boss and Barden, who gave their services.

Beautiful Park.
The village board have ordered the North park put in order and the trees trimmed. \$10 was appropriated to the G. A. R. for Memorial Day exercises.

More Cityified.
An ordinance was passed by the board prohibiting the tying of live stock in the streets or allowing it to run at large.

Missionary Rally.
The Beloit District Women hold a missionary rally at the Congregational church in this village Tuesday next.

Receive Drubbing.
The high school ball team got it rubbed into them Wednesday by the Palmyra Highs, the score being six to fourteen.

No Rock Yet.
The well at the high school building was down 226 feet Wednesday and no rock yet.

I. O. O. F. Delegates.
W. A. McEwan and A. D. Haskins are the delegates-elect from Du Lac lodge to the Grand Lodge I. O. O. F. and S. B. Day alternate.

Milton Brevities.
The Village Improvement Club meets with Mrs. Clem W. Crumb Monday afternoon.

Mrs. R. B. Tolbert has gone to Chicago to remain until after the graduation of her husband from the Chicago Theological Seminary on the 11th inst. They are to locate at Wells, Mich.

The high school baseball team will play the return game with Albion

DR. FENNER'S Kidney Backache Cure

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations FREE.

Suffered with Kidney Trouble. Had Pains in His Back.

"For some time past I have been suffering with kidney trouble, causing severe pains in my back. I was unable to do any heavy work. I tried many remedies and doctors but without benefit. I then commenced taking Dr. Fenner's Kidney and Backache Cure and secured prompt relief and now after many months, have had no return of the aches and pains and am able to work as I could not before.

My little grandson has also been greatly benefited by its use.

I certainly heartily recommend your Kidney and Backache Cure and am very thankful for the cure it has wrought in me. Yours truly,

JOHN LONG.
Father of Frank Long, proprietor of Hotel Oxford, Topeka, Kas.

Do as the Romans do—"but do it better than the Romans do it! Your competitors advise—do as they do; but do it better, and do more of it."

INTOLERABLE INTERFERENCE.

"The tendency to 'government by commission' is emphasized in the substitute bill No. 353A, which is designed to confer arbitrary powers upon the state board of medical examiners. Ostensibly the measure is designed to raise the standard of the medical profession, but in reality it is calculated to give to the board of medical examiners the power to revoke the license of any physician that may not conform to the ethics of the medical profession. It seeks to use the law as a club to force dissenting doctors to conform to the rules of the profession or be deprived of their means of livelihood."

"To defog and obscure the real purpose of the proposed act, it authorizes the board of medical examiners to revoke the license of physicians for acts that are crimes under the laws of the state and which are punished with severe penalties. The crux of the bill is found in the clause that provides that the state board of medical examiners may deprive physicians of their license to practice when found by the board to be guilty of 'immoral, dishonorable or unprofessional conduct.' The offense of 'unprofessional and dishonorable conduct' is defined and offers wide latitude to the board of examiners, in that any physician that may run counter to the ethics of the profession by calling the public's attention to his remedies may be found to have engaged in unprofessional conduct of an 'offensive' nature. It is left to the board to determine what shall constitute 'immoral conduct.' Any violation of the ethics of the profession might be held 'immoral' and the offender deprived of his license to practice. True, he would have recourse to the courts, but that would offer tardy and inadequate relief to a practitioner whose only offense consisted of running counter to the rules of the doctors' union."

"As a matter of fact, laws of this character are calculated to restrict competition, though they always appear in the guise of giving protection to the public. The barbers' law ostensibly is to protect the public from incompetent barbers, but, as a matter of fact, the design of its promoters was to limit competition and incidentally provide places for a few barber politicians. The medical profession has been persistently active in obtaining the enactment of laws to curtail the practice of medicine and has come to consider it a matter of right that the laws should prohibit any method of healing or practice that does not meet the approval of its code of ethics."

"There are many admirable things in the ethics of the medical profession, but when it is undertaken by law to compel all doctors to abide by the rules of the profession it is an infringement upon the liberty of the citizen that is intolerable in a free state."

The Milwaukee News thus ventilates the medical bills now pending in the assembly. More than 500 publishers protested by wire and the chances are that the bills will expire a natural death."

There is a good deal of false sentiment concerning pure food and pure drugs. The dairymen oppose oleomargarine and the physicians all kinds of competition, on the ground that they are more interested in the public health, than all other classes. This is the merest pretext, and back of it is a spirit of selfishness which is so easily detected that people generally recognize it."

THE BALANCE OF POWER.
 Every large city in the land is controlled by the vote of men who do not own a dollar's worth of property and a liberal percentage of this class have but little regard for property rights.

The balance of power in Chicago is in the hands of this class of citizens, and the fact that popular vote recently decided in favor of municipal ownership is conclusive evidence that the majority which favored the scheme, was made of men who will never contribute a dollar to its support.

a number of states which if carried out will prove disastrous.

This is especially true of Wisconsin in its attitude towards railway corporations. The shippers and manufacturers, the men who have the most to do with these corporations, are satisfied with present conditions, but designing leaders have stirred up the masses, for political purposes, until the state, which has always been noted for conservatism, has become as much of a by-word as Nebraska.

It does not require a great mind to work upon ignorance and prejudice. Every mob on the streets, whether incited by labor disturbances, or thirst for the revenge of crime, is under the leadership of some man who possesses the ability to direct and inflame to riot, but this does not make him a great man.

This is just as true of the men who lead in radical and revolutionary movements, under the guise of reform. They work on a broader field, but their constituency is largely composed of the masses, who are ever ready to adopt any policy and follow any leader where promises of fertile fields and green pastures are offered without money or individual effort.

Under these conditions, and they are largely the prevailing conditions today, the rights of properly receive but little consideration. If the question of municipal ownership were submitted to the taxpayers of Chicago, the men who pay the bills, it would be voted out ten to one, and if the question of railroad regulation was left to the men who pay the freight it would be defeated in about the same proportion.

The nation has too many so-called reform leaders. The people need to cultivate a spirit of fairness and justice, more than they need inciting to revolution.

AMERICA'S RAILWAYS.

There is now in session at Washington the International Railway congress, with delegates in attendance from every country in the world. The address of welcome was delivered yesterday afternoon by Mr. Stuyvesant Fish, president of the Illinois Central Railway company, representing the American Railway association. The address is too long to reproduce, but it is the strongest endorsement for American railroads yet published. While comparisons are not odious they contain valuable information and speak volumes for American enterprise. The following paragraph from the address of Mr. Fish furnishes food for thought and the Wisconsin legislature cannot do better than to read and consider:

"The American railways have created both the traffic and the production. The earliest explorers of the Mississippi valley, the French Jesuit priests, commented constantly upon the fertility of the soil. Their maps, made as early as 1673, showed coal (carbon de terre) as outcropping along the banks of the Illinois river. But it was not until the railways made commerce among the several states possible that our prairie became a fit abode for man, or the mineral and forest wealth of the west became available to man. Without the railway those prairies would yet be the abode of the Indian and the bison. For while the earliest settlements of English-speaking people on our Atlantic seaboard were made in Virginia in 1600, civilization had not in 1850, except in scattering settlements along the banks of rivers naturally navigable, reached one-third of the distance across the continent. The reports of the engineers sent out in 1853 to make the original surveys for the construction of the Illinois Central railroad across the prairies of Illinois refer to their camps being constantly invaded by wolves. In short, without railways, civilization consumed two hundred and fifty years in moving less than one thousand miles inland, while in the fifty years which have elapsed we have

seen it pass, aided and led by the railway, on through arid wastes and over the great chains of mountains, which form the backbone of the continent, until today there is no portion of the wide stretch of three thousand miles, from the Atlantic to the Pacific, which is without means of rapid and convenient communication."

If as much ignorance prevails in the assembly over the average bills, as was disclosed in the medical bills now pending, the action of that body can hardly be deemed intelligent."

The doctors and not the people are clamoring for more legislation on proprietary medicines and professional competition.

Indian Style of Beauty.
 A flat, retreating brow and flat features are not admired by men in civilization, but there are many people who consider this a decided mark of beauty. Hearne, who spent many years with the American Indians, declares: "Ask a northern Indian what beauty is and he will answer a broad, flat face, small eyes and four or five broad, black lines across each cheek, high cheek bones, a low forehead and a broad chin."

TO PLAY ROCKFORD STARS NEXT SUNDAY

Baseball Team Arranges Game at Yost's Park—Chicago Nine Next.

T. Larson, manager of the Janesville baseball team, was in the Forest city yesterday and arranged a game for Sunday with the Rockford Stars, a strong aggregation of players. This will be the second game of the season for the local nine and a week's training and practice will be evidenced in the work of the team. Various positions have been strengthened and players shifted about to make a better fighting machine on the diamond and in the field and a better line-up of batters when in New-man of Broadhead will hold down the initial base and Solbraa will take second. Cal Broughton will catch and Frank Broughton will serve as short-stop. Hinkley will not be in condition to pitch but Palmer will doubtless be secured to twirl. The contest promises to be lively and the chances for a victory for the Bower city team are good. Sunday, May 14, a Chicago team will be brought here.

BIRDS ARRIVING ON THE SUMMER TRIPS

Nearly a Hundred Kinds Can Be Seen in the Southern Part of the State.

During the past three days birds have come on with the rush that usually is noted early in May. Late arrivals include the American redstart, chebec, Baltimore oriole, scarlet tanager, brown thrasher, water thrush, rose-breasted grosbeak, wood thrush, Maryland yellowthroat, blue-gray nighthawk and half a dozen or more of the warblers—the parula, black-throated blue, magnolia yellow, prothonotary, goldfinch and Nashville. Nearly 100 of the summer birds are now here or have been in transit northward, perhaps less than a dozen having passed on—some 30 are yet to appear, among them being three vireos, terns, hummingbird and the great-crested flycatcher.

GEO. PARKES WEDS IN WASHINGTON

Former Janesville Man Was Married to Miss Ray Parlin Last Week Wednesday.

Announcements of the wedding of George Parkes and Miss Ray Parlin in the city of Washington, D. C., last week Wednesday, April 25th, have been received by a number of Janesville friends of the groom who formerly lived here and was in the law office of Whitehead & Matheson. Mr. Parkes is private secretary for one of the prominent stationers and is also taking work in the Columbian law school. He was admitted to the bar before leaving Janesville.

Notice
Hereafter the Woodruff farm will retain the milk and cream from their own herd of choice cows. The first wagon is now working the west side of the river. A wagon will be sent on the east side later. Rock County phone 5982.

Notice.
All the photograph galleries of the city will be closed Sunday, commencing June 1st, until October 1st.

BRIEF BITS OF LOCAL NEWS

Music Festival at Fond du Lac.
On account of the May music festival at Fond du Lac, May 5th and 9th, the C. & N. W. Ry. will sell on those dates round-trip excursion tickets for a fare and a third for the round trip. Tickets limited to return up to the 10th. For further information see ticket agent, C. & N. W., Tel. 35.

Struck by Auto: Eddie Goodman, the son of Michael Goodman, had an exciting experience on South Jackson street yesterday, and one that might have been serious. He was struck by an automobile and knocked down, but his injuries were not severe.

Interurban Fights Dust: The R. & B. & J. Interurban line began yesterday to sprinkle its eight-foot right-of-way on the loop and South Franklin street as far as Oak street. The wetting down treatment will be given twice a day.

Plays Purdue Monday: The Beloit college baseball nine will play Purdue on the home grounds Monday and a number of Janesville people will probably witness the game. The contest with Lake Forest, which was to have been played tomorrow has been postponed until May 20. The University of Wisconsin team is to play at Beloit on Decoration day.

Horse Sold Here: At the April market day in Madison a horse belonging to Edward Fischer was stolen. At the market day last Wednesday the horse was found in the possession of a horse-trader and recovered. During its absence the horse had been the property of a half dozen men, among them a Janesville horse-trader, who sold him to "Billie" Reynolds, a well-known horse-trader, from whom it was recovered.

W. W. Woodring to Wed: A marriage license has been issued to Walter W. Woodring and Ellen M. Caldwell, both of Janesville.

Meet to Incorporate: This evening there will be a meeting of the directors of the Janesville Chautauque association at the Hotel Myers. The perfection of the organization will be effected this evening.

Frank Bunt, employed for the past four years at the People's Drug company in this city, will leave soon for Chicago, where he has secured a position in the retail drugstore of F. O. Christensen at 1235 Jackson boulevard, and later will take up a course in pharmacy at Northwestern university.

Human-faced pansies, geraniums, carnations. Nash.

BROSNAHAN NOT HELD FOR TRIAL

Young Man Arrested on Charge of Breaking Into Batting Mill, Discharged by Court.

Jerry Brosnahan, who was arrested on the charge of breaking into the mill of the Janesville Batting Co., was discharged at the conclusion of his examination in municipal court this morning, the evidence not being deemed sufficient to hold him for trial.

STREET CLEANED BY THE GRADER

Commissioner Bennett Says a Full Load of Sand and Clay Was Taken Off South Main Every 40 Feet.

Street Commissioner Bennett hit upon the expedient of using the grader for removing the accumulated dirt from the macadam on South Main street and the scheme proved a very good one, permitting the work to be finished up in short order. A full load of foreign matter was taken from the street every forty feet from the Lewis Knitting Co.'s plant to Eub's brewery. The deposit of sand and clay was much heavier on the east side of the street-car tracks, which is usually taken by farmers' teams entering the city, than on the west side.

WEATHER
Temperature last 24 hours taken from U. S. registered thermometer at Helmstreet's drugstore: Highest, 84 above; lowest, 47 above; at 7 a. m., 45 above; at 3 p. m., 61 above; wind, northwest; sunshine and pleasant.

EDGERTON
[SPECIAL TO THE GAZETTE.]
Edgerton, May 5.—Mr. and Mrs. August Ruch are the parents of a new daughter, born Tuesday, May 2.

A girl was born Tuesday evening at the home of Mr. and Mrs. Geo. Banker.

Miss Hazel Underhill was an over-Sunday guest of Miss Angie Towne. Will Routh was called to his mother's bedside at Grand Rapids on account of serious illness.

Mrs. E. J. Blything left Monday for Whitings, N. J., to make her home with her daughter.

Mrs. L. A. Parr has left for a three months' visit at her old home in England.

Born to Mr. and Mrs. Richard A. Feldt, on Saturday, April 29, a son.

Combination Sale
at the Farmers' Rest, May 10, Wednesday. Everybody come.

Miss Sarah Hickey leaves on the evening train for Milwaukee, where she will visit relatives over Sunday.

ALDERMEN TO TOUR THE CITY BY NIGHT

Whole Council Will Visit Dark Corners of Janesville Tomorrow Evening.

Pursuant to a call issued today by Alderman J. J. Sheridan, chairman of the lighting committee, the city council will assemble at eight o'clock tomorrow evening at Connell's cigar store where a wagonette will be in waiting to take the city fathers on a tour of the city as guests of the electric light company. Wherever it seems advisable to replace small lamps by large ones and vice versa the aldermen will make personal investigation in order that they may be in a position to take intelligent action where the matter comes up. The contracts for lighting have not been awarded. In all likelihood the Janesville Electric Co. will get them.

PROBABLY NO ROUND HOUSE THIS SUMMER

St. Paul Road Will Doubtless Let the Work of Building Here Go for Another Year.

Busied with the work of extending their line to the coast and other operations of magnitude the St. Paul railroad are neglecting some of their minor needs. Among these is a new round house at Janesville. During the early part of the open season it was thought by local railroad men that a structure of fifteen stalls and with office rooms and shops would be needed here this summer, but it now appears that the city will be slighted for another year. Nothing concerning the new building has been heard from headquarters and the proposition has likely been laid aside for the time being.

NEARLY A HUNDRED STUDENTS WILL GO

Annual League Declamatory Contest at Beloit Will Attract Many From Here.

In the neighborhood of one hundred high school students will take the electric cars to Beloit this evening to be present at the annual declamatory contest of the southern Wisconsin league, which takes place in the Wilson opera house there. Janesville will be represented in the competition for places by Misses Erma Shoemaker, winner of the declamatory medal, and Ethel Hodge, who was awarded second place in the medal contest. Both are excellent readers and they will be strongly supported by the Janesville rosters, with tin horns and sky blue banners.

MORTUARY MENTION

William Cunningham.
All that remains of the late William Cunningham of Columbus, Ohio, was laid in the final resting place in Mount Olivet cemetery today. The body arrived in the city at ten-thirty o'clock over the St. Paul road and was directly taken to the cemetery for interment. The pallbearers were W. Henry Brazzel, I. F. Connors, Charles Daly, Cornelius McKinley, John Brown and Joseph Cantillon, the latter of Chicago.

Mrs. Anna S. Burke
The last sad rites over the remains of the late Mrs. Anna S. Burke were performed at St. Mary's church this morning at 9:15 o'clock by Rev. Meyer of Jefferson. The pallbearers were brothers of the deceased. They were James, Edward, Michael, William, John and Patrick Fanning. Interment was in Mount Olivet cemetery.

Mrs. W. F. Pember
Mrs. W. S. Pember of Johnston, committed suicide this morning by hanging herself in the wood shed of her home. She had been suffering from mental depression for some months and was under treatment at a private sanitarium during the winter. She returned home somewhat improved in health and hopes were entertained of her complete recovery. She seemed as well as usual when her husband went to the barn at an early hour this morning, but when he returned she was missing from the house and a few minutes later was discovered hanging by a rope in the wood shed. The family will have the sympathy of many friends in their bereavement.

ENJOYED A REAL GOOD TIME AT THE PARTY AT MRS. H. A. SEGERS

Old Neighbors From Magnolia Drive And Spend the Day With Her.

Twenty-five old friends of Mrs. H. A. Segers drove in from the town of Magnolia yesterday and spent the day with her. They brought their own dinner and enjoyed a genuine old-fashioned party.

Rody-Lamp
Miss Annie Rody of Marshfield was married on May 2 to Henry Lamp of Ft. Atkinson at the home of the bride's parents in Marshfield. Mr. Lamp's mother lives in Janesville and he has friends here.

TROUBLE ARISES IN UNIVERSITY TEAM

Captain Is To Leave Athletics and Coach Ripon College Team This Spring.

[SPECIAL TO THE GAZETTE.]
Madison, Wis.—Emil Breitkreutz, captain of the University of Wisconsin track athletic team, has accepted a position to coach the track team of Ripon college and will therefore turn professional and cease to compete in amateur intercollegiate athletic contests. While this decision is a loss to the Badgers, it is no shock, for it has been known for months that Captain Breitkreutz was in bad spirit and would not represent the cardinal in the conference college meet in Chicago. He is the holder of the western intercollegiate record in the half-mile run and would doubtless win points at Chicago, but he has through all his college career been averse to consistent training and has given the coaches much anxiety. He has been catered to and humored, but sometimes he has been severely reprimanded and for the many with Track Coach James Temple. After Lightbody of Chicago defeated Breitkreutz in the first indoor meet, the Wisconsin coach spoke complainingly to the Badger captain and shortly it was announced that Breitkreutz was "physically unable to continue training." It was known that he had quit the team in a huff. It was whispered that he feared defeat by Lightbody in the subsequent meets and had therefore announced that he was sick and that his physician required that he suspend track work. This "yellow streak" story is not generally believed. Breitkreutz is undoubtedly an excellent athlete.

Complaint is heard from the track team that Manager Downer will not allow them adequate paraphernalia. It is said that only two pairs of running shoes have been given the entire squad of athletes this season. Other similar complaints are numerous. Manager Downer is making a strenuous effort to keep down expenses because the athletic association is badly in debt. This is his reason for the extreme economy.

BELOIT FARMERS UNABLE TO AGREE ON SITE FOR NEW CREAMERY BUILDING.

Patrons of Clover Leaf Taking Milk to Beloit, Newark, Afton and Hanover.

Beloit, May 3.—About sixty farmers gathered at the Hanson schoolhouse again Monday night to try and decide where the new creamery should be located. The site is still unchosen. The patrons of Clover Leaf creamery are taking their milk to Beloit, Newark, Afton and Hanover.

Mr. Shurtliff and Wallace Cochrane of Janesville were calling in the vicinity in the interest of the cream business.

John Dass is improving the looks of his farm with a road fence. Meach and Cochrane of Beloit were out the first of the week looking over the ground for the new creamery.

Al. Beals was baling hay last week. Mr. Knill is putting up a new yard fence of woven wire with cement posts.

Willard Toiles called at C. Gower's Sunday.

C. Gesser and family were at Mr. Gower's Sunday.

Mr. and Mrs. W. H. Eldredge and family spent Sunday at Frank Blunk's.

Mr. and Mrs. McCrea of Afton visited at J. Crist's Sunday.

Robt. Jackson is having his buildings painted.

F. R. Eldredge and family were Rockton callers the first of the week. On Tuesday Mr. and Mrs. R. M. Halley attended the funeral of their uncle, Ed. Halley, in the town of Owen.
